Summary

I am a third year software engineer student focusing on UI/UX design and research. I have a passion for creating user-centered and visually appealing interfaces. I believe my diverse skill set is a valuable asset to any software development team.

Proiects

- TrendyTails: A MariaDB database management UI demo
- Self-hosted Website: My personal site (linked above) using NGINX on Arch Linux
- More Coming: Ask me!

Full-stack Development

- Front-end: Next.js, React, TailwindCSS, HTML, CSS • **Back-end:** TypeScript, Node.js, MariaDB (SQL), Flask
- Web server: NGINX, PHP

Programming Languages

- Python: Experience with Hugging Face Diffusers library for latent diffusion models
- C/C++: Intro to Computer Science II (CS 162), Data Structures (CS 261), OS I (CS 374)
- Misc.: Microsoft Assembly (CS 271), Haskell & Prolog (CS 381)

Tools I Use

- Figma: Conceptualize and prototype UI
- Notion: Creating my own documentation and general notetaking
- Adobe: Adobe Premiere Pro for video, Photoshop for photo, Illustrator for vector design

Education

Computer Science (HCI) — Undergraduate Oregon State University **Business Program** — Career Technical Education Center

Experience

NextTech Consultants — IT Support Consultant **3 years** (01/2021 - 01/2024)

- Provided remote IT support and management (i.e. troubleshooting clients' software)
- Responsible for overhauling interfaces, updating DNS entries, and other general web tasks managed on a variety of platforms (i.e. Wordpress, GoDaddy, Wix)
- Installed and configured enterprise networking gear (i.e. Ubiquiti APs and switches)
- Edited and published professional video content
- Utilized ConnectWise Manage for ticket management and collaborative teamwork

Best Buy — Seasonal Sales Specialist

2 months (10/2020 - 01/2021)

- Facilitated customer needs and drove store sales
- Communicated effectively with customers to determine their needs
- Worked as a team to ensure efficiency and utilize different skill sets
